Partner Plan Act is committed to embedding an equity lens into Community Systems Development work. How will you incorporate a focus on equity into your workshop? Questions that may assist you in thinking of ways to incorporate an equity lens include:

- Are you engaging those most affected?
- What factors are producing inequities?
- Are your strategies perpetuating inequities?
- Do your strategies result in equitable outcomes?
- How can you evaluate your impact?

We are committed to ensuring that participants are engaged in constructing their own knowledge. How will you facilitate active learning and ensure that participants leave with new knowledge, tools, and strategies?
